1. Browse to the College Moodle Home page at [http://slcvle.slc.ac.uk](http://slcvle.slc.ac.uk) or use the link to VLE which is on the Student Services page of the College Web site.

2. Enter your College Username & Password carefully in the login box at the top right hand corner of the Moodle Home page.

3. You must update your profile by entering minimum details indicated at the * When adding Email address you should use your student Email address e.g. 7654321@student.slc.ac.uk

Note: Remember to click on the Update profile button!!!!
After clicking the Update Profile button – you should see a new page with the navigation trail *Moodle>*your name>*Edit profile* at the top of the page – see student steve example below

Move your mouse along the trail and click on *Moodle* - if your tutor has pre-enrolled you on a course you will see a page with your courses on the left hand side of the page – otherwise you will view a screen similar to the example below

Click on the *All courses* link at the bottom left hand corner of the page – it should take you to a screen similar to one shown on the next page!!
Scroll down this list and select the required course – the example on the next page shows a typical screen – where you simply click the Yes button to enroll on the course. Not all courses are fully developed - some courses may be at an early stage of development!

Also Note: Some courses might require an enrolment key which your tutor will give you!
The final page will be the Home page for the chosen course – Intro to Moodle in this case.

There is also a Student Guide which explains in more detail how to get the best from your Moodle supported course – happy Moodling!
